

CPB CONTRACTORS - Caval Ridge Southern Circuit Project

LOCATION	DURATION	VALUE	MAN HOURS
Moranbah, QLD	Jan 18 - Jul 18	\$6.6 million	27,000

Project Overview

ECM has been awarded the electrical and instrumentation works contract for a coal mine upgrade project that encompasses a new 11km overland conveyor, a new ROM receive facility, several transfer stations and associated electrical and instrumentation infrastructure.

Caval Ridge Southern Circuit (CRSC) is an 11-kilometre overland conveyor system which will transport coal from Peak Downs Mine to the Coal Handling Preparation Plant (CHPP) at the nearby Caval Ridge Mine.

Scope of Work

Electrical and instrumentation installation works for:

- Run-of-Mine (ROM) Station & Stockpile Pad
- Overland Conveyor (OLC)
- OLC Surge Bin and Transfer Conveyors & Stations
